

IDEP FOUNDATION

Helping People to Help Themselves

VISION

Life in Harmony with Nature

MISION

Strengthening community resilience

"Helping People To Help Themselves" built community resilience through demonstration, community assistance and advocacy, training related to sustainable agriculture and disaster risk reduction.

Preservation of the environment

Supporting communities and environment itself to build sustainability living and community resiliences.

VALUES

- Sustainability
- Focusing to community, including groups with special needs
- Active without violence
- Non-partisan
- Natural harmony
- Independence
- Effective

STRATEGIC PLAN 2014-2018

Increasing community capacity in Indonesia

- Deliver appropriate community resilience training and educational media for communities in recovery;
- Use permaculture to rebuild community resources in a sustainable way;
- Public awareness campaign and advocacy related to sustainable living and disaster risk reduction in community and school level;
- Exchange information between institutions at national and local level on community resilience.

Media development to support community awareness

- Development and dissemination of community advocacy media on permaculture and disaster risk reduction;
- Public awareness through educational media for community and school level;
- Strengthening social media campaign to support organizational vision and mission.

Develop a replicable community modeling for sustainable living and community resilience

- Strengthen and enhance community resilience models;
- IDEP Institutes of Permaculture;
- Disaster risk reduction activity through training, reforestation and planting, seed saving/seed banks, water preservation, earthquake safe house for poor community;
- Implementation of renewable biogas energy.
